PERSONAL PROFILE

As an applied math student turned Software Engineer, my statistical analysis knowledge combined with functional programming builds quality, scalable applications. Driven to build useful software, I simplify consumers' complicated routines. With my experience in HTML, CSS, JavaScript, and Java, I write efficient and elegant programming solutions.

SKILLS

Programming:

- **Front end:** JavaScript (ES6), CSS3, HTML5, Bootstrap, React.js
- **Back-end:** Java, Spring Boot (MVC), SQL (Postgres), MongoDB, unit testing, AWS
- **Extra:** GitHub, C++, Matlab, Docker, Kubernetes, Microservices

General:

- **Microsoft software:** Office (Excel, Access, Powerpoint), Azure
- **Project Management:** SCRUM (Agile Methodology), JIRA
- **Extra:** AnyDesk for remote work

PROFESSIONAL EXPERIENCE

AmEx Developer Academy
General Assembly
Aug 2019 - Nov 2019

- One of 25 from 1200 applicants accepted into a General Assembly Initiative sponsored by American Express
- Created web applications in collaborative teams using HTML, CSS, JavaScript, React.js, Redux, Java, Spring Boot, SQL, Git, and GitHub
- Learned about Docker (and Kubernetes) for code management, and SCRUM (and Agile) for project management.

Software Developer
MOI Inc.
Jan 2017 - Dec 2017

- Built a responsive website, moitime.com, using HTML/CSS/jQuery, Bootstrap for front-end; Ruby on Rails and MongoDB for back-end
- Managed workflow using GitHub to share code and website materials
- Planned goals and deadlines for a development and design team using JIRA

Instructor
Optimum Tutorial
Jan 2014 - July 2015

- Coordinated with schools, other instructors, and teachers to develop teaching methods and integrated instruction best suited for students
- Guided students in their studies, across several subjects and grades. As a result, more than 10 students received above 1800 on their SAT

Social Media Intern
Illustriam LLC.
Sep 2013 - Jan 2014

- Implemented search engine optimization tactics to increase following on Twitter, Facebook, and Google
- Collaborated closely with other interns and coordinator to build quizzes and tutorials on the website lifegpa.net

EDUCATION

CUNY City College of New York
Major: Applied Mathematics
Minor: Computer Science
Graduation: May 2019

General Assembly
American Express Developer Academy
Completion: November 2019
